

Levitation Technology Enables Preclinical Target and Translational Discoveries

May 22nd, 2026

9:00 AM, Sala de sesiones. Escalera 3-5 Planta 3
Hospital Clínic de Barcelona

TRUE BIOLOGY & REAL CELLULAR INSIGHTS TO POWER YOUR RESEARCH

Learn about the advantages of Levitation Technology across a broad range of sample types and throughput needs, from single cells to organoids and individual to 96 samples in parallel. This talk will describe how Levitation Technology can deliver significant benefits across the entire workflow for critical applications such as scRNA-Seq

Join us to learn how you can:

✦ Remove most of dead cells and debris from your preps without using beads, centrifugation, or FACS

✦ Process up to 96 samples in a single, automated run

✦ Why Levitation Technology should be a critical part of your workflow

Speaker: Mar Margalef
Scientific expert, Europe
