Experiment Manager Update Procedure

1. Go to www.levitasbio.com/support.

2. Download the **LeviCell Experiment Manager v2.2.msi** file for the new software version to your LeviCell 1.0 computer.

If the computer is not connected to the internet, use an external storage device such as a USB drive to transfer the downloaded file to the LeviCell 1.0 computer.

3. Double-click to launch the .msi file.

4. A Windows protect screen will appear. Select "**More Info**".

5. Confirm the publisher is LevitasBio, Inc., then select "**Run anyway**".

6. Follow the on-screen instructions to install the new software. *Upon completion, Windows may ask you to restart the computer.*

7. When installation is complete, a new shortcut for Experiment Manager v2.2 will appear on your desktop. To avoid confusion, be sure to remove shortcuts for earlier versions of Experiment Manager software.

8. To start Experiment Manager, double click on the software icon.

Contact Technical Support at support@levitasbio.com if any errors are encountered during the procedure.
